We will never offshore your billing!

Why we are different

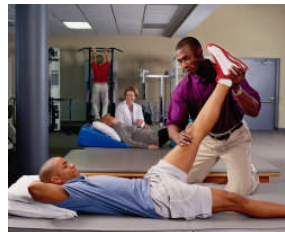

- **COMMITTED TO THOROUGHNESS**
We utilize a unique follow-up system that guarantees no claims fall through the cracks or goes past timely filing – and also enables us to tell you at any given moment the exact status of every outstanding charge
- **COMMITTED TO EDUCATION**
Through our professional memberships, subscriptions to all major payer listservs, RSS feeds, and online professional message boards, we always keep abreast of the latest laws, regulations, and trends in medical reimbursement
- **COMMITTED TO CERTIFICATION**
Every managing staff member has earned the Certified Medical Reimbursement Specialist national credential through the American Medical Billing Association

We have experience with all provider types and have dealt with all types of government and private payers.

Our level of service is above par, and includes claims scrubbing to guarantee compliance and a follow-up system that guarantees no claim goes unprocessed. If we deem any collections issues originate in your office processes and policies, we will work with you to correct the problems. We will also track payment trends and alert you to issues involving contract negotiations, care delivery and procedure pricing. And, you can choose to have access to the billing system (in most cases) so you can track our progress and your financial status.

We keep up with the latest trends and changes. Reimbursement is all we do, so we devote all our time and energy to medical reimbursement.

Compliance is important so we have a written compliance plan patterned after the Office of Inspector General's Compliance Program Guidance for Third-Party Medical Billing Companies.

We can provide full service, or component services to any client, depending on their needs. We are also experts at aged claims collections!

"Leah is extremely efficient and detail oriented. She has a wealth of knowledge and experience...which most certainly gives her an edge over the less experienced."

-C. Freeman, CRT Healthcare Mgm't Systems
